

**TECHNIQUES FOR ACCESSING INFORMATION CAPTURED
DURING A PRESENTATION USING A PAPER DOCUMENT HANDOUT
FOR THE PRESENTATION**

ABSTRACT OF THE DISCLOSURE

Techniques that enable information recorded during a presentation to be accessed or retrieved using a handout printed for the presentation. A user can select one or more items, such as slides, printed on the handout and access portions of the recorded information when the user-selected items were presented or displayed. Different types of information may be accessed. Different actions may also be performed on the retrieved information.
